

**Federation of Western Outdoor Clubs
2008 Resolutions**

**RES. NO. 18: REGARDING REOPENING OFFSHORE OIL DRILLING ALONG
CALIFORNIA, OREGON AND WASHINGTON**

BACKGROUND: The oil companies now have 68 million acres of leased public land and off-coast areas they are not utilizing. A new refinery has not been built in 30 years. Although this is now political, we should make a stand.

RESOLUTION: The Federation of Western Outdoor Clubs opposes opening additional areas to drilling for oil and gas offshore of California, Oregon and Washington.
