

Resolution #15  
Federation of Western Outdoor Clubs

## **SUPPORT LAKE TAHOE RESTORATION REAUTHORIZATION ACT**

Submitted by: Toiyabe Chapter, Sierra Club

**Background:** Scientific research shows that significant improvements are needed in the management of Lake Tahoe in order to save this national and international treasure. The Lake Tahoe Restoration Reauthorization Act would restore clarity of the lake. Strong emphasis should be placed making these improvements. However, the Act must be tied to limited development at the Lake including the Tahoe Regional Planning Agency twenty-year plan.

**Resolution:** The Federation of Western Outdoor Clubs supports the Lake Tahoe Restoration Reauthorization Act with strong emphasis on implementing the provisions of the Act.
