

Resolution #5
Federation of Western Outdoor Clubs

SUPPORT NEW BULL TROUT HABITAT PLANS

Submitted by: Marjorie Sill

Background: A federal judge supports the U.S. Fish and Wildlife Service's request to re-examine the amount of habitat needed to save the threatened bull trout population and to expand critical habitat designation. A thorough study is needed for this population to survive.

Resolution: The Federation of Western Outdoor Clubs encourages the U.S. Fish and Wildlife Service to expand critical habitat designations for the threatened bull trout range wide and particularly, the Jarbidge River in Nevada.
