

Resolution #6  
Federation of Western Outdoor Clubs

**SUPPORT A REGIONAL PLAN UPDATE FOR LAKE TAHOE  
WHICH UPHOLDS THRESHOLD STANDARDS**

Submitted by: Toiyabe Chapter Sierra Club

**Background:** The Tahoe Regional Planning Agency (TRPA) has proposed a Regional Plan Update which ignores the threshold standards adopted in 1982 to protect, attain, and restore ecosystem values to the Lake Tahoe Basin. A citizens' coalition, including the Tahoe Group of the Sierra Club and the League to Save Lake Tahoe, is developing a conservation alternative based on threshold standards (75% of these are at present out of attainment including those for lake clarity and air) and focusing on environmental impacts of unwise development and exceeding the carrying capacity of the basin.

**Resolution:** The Federation of Western Outdoor Clubs strongly supports a Regional Plan Update in the Lake Tahoe Basin which upholds the threshold standards adopted in 1982 and emphasizes the importance of the clarity of the Lake and the air quality of the Basin.
